Education Information for 2010/11 Academic Year

Name of Institution

Address of Institution

Name of Program of Study

Specialization in Program of Study

Expected Graduation Date (YYYY/MM/DD)

Name of Degree, Diploma or Certificate

Interest and Commitment (250-500 words) (30% of final score)

Describe your interest and commitment to the field of the environment, your chosen program of study, and the linkages between your work and the field of contaminated sites management. This may include long-term academic and career goals, as well as past or present academic projects.

Innovation, Creativity and Originality (250-500 words) (30% of final score)

Explain how your innovative actions and/or ideas have demonstrated your interest in the environmental field and furthered your field of study.

Leadership (250-500 words) (30% of final score)

Describe how you have demonstrated vision and determination in your actions in the environmental field, specifically related to contaminated sites.

Publications, Awards and Presentations (10% of final score)

List all publications in academic journals, if applicable. List all awards and recognitions received (e.g. scholarships, prizes) and the date that each was received. Describe any presentations that have been delivered in a public forum, and provide the date and event information.

Completed scholarship application form must be submitted via email to RPIC_FCSNW@thewillowgroup.com. Candidates will receive an email confirming receipt of application within seven business days.

Scholarships will be awarded at the 2010 RPIC Federal Contaminated Sites National Workshop being held May 10 – 13, 2010 at the Fairmont Queen Elizabeth Hotel in Montréal, Canada. Scholarship recipients will receive a complimentary delegate pass to attend the event.
